Latitude
45.03890
Longitude
-110.02200
Notes

From an email, "Performed a stability test on a South facing slope, 9400', 190HS, Ectp21, SC 85 cm deep on MFcr rounding facets. We had a very large collapse while in pit and a few others on the climb out. No other signs of instability or avalanches were seen in the Pebble Creek region today."
