Collapses in s. Gallatin

Specimen Creek
Southern Gallatin
12/4/2019
Code
Elevation
8300
Aspect
S
Latitude
45.02650
Longitude
-111.04800
Notes

From e-mail: "Skied up to 8300 feet on Meldrum Mountain until I succumbed to the deadfall and turned around. Poor structure with facets at the ground and low coverage. Collapsing on southerly aspects where there was enough snow. Northerly aspects were unsupportable."
