

There's a new avalanche sign next to the beacon checker on the road out of Cooke City. Snowmobilers and skiers will pass it on their way to Lulu and Daisy Pass. It has the daily avalanche danger and a map showing the location of all the avalanche fatalities. This sign was a team effort between the GNFA, the Friends of the Avalanche Center, and Montana State Parks (FWP). A big thanks goes out to Seth McArthur of FWP who made the sign. Photo: L. DeMarcus
