

Natural wet loose slides near Cooke

Barronette Peak

Cooke City

3/27/2022

Code

WL-N-R1-D1.5-O

Elevation

9000

Aspect

E

Aspect Range

E-SE

Latitude

44.97520

Longitude

-110.08700

Notes

We observed widespread natural wet loose activity on 3/27/22 on the way into Cooke City. Slides were 8-12" deep and happened yesterday and today. While pulled over to photograph a crown we heard avalanches running on slopes nearby.
