

Natural avalanche mt Blackmore

Date

Sat, 01/20/2024 - 08:30

Activity

Skiing

While up there investigating yesterday's avalanche i noticed a new debris coming out of the lookers left chute on Southeast face a blackmore. got closer to the ridge and noticed this. happened last night or this morning. wind was definitely pumping a change. Directions loading this aspect. debris ran out of side of this picture. 5 feet deep 50 to 100 ft wide and ran roughly 800 feet.

Region

Northern Gallatin

Location (from list)

Mt Blackmore
