## **BSSP Triggered avalanches**

Date Thu, 11/28/2024 - 02:05

Big Sky Ski Patrol triggered a deep <u>slide</u> in the Big <u>Couloir</u> during avalanche mitigation work on 11/28/24: "Summit north peeled the <u>cornice</u> way back to the ridge and took out the upper hanging snowfield before crashing into the <u>Couloir</u>, leaving a 5-6' tall crown in the chute above the dogleg."
