

Large natural avalanche south of Cooke

Date

Tue, 01/07/2025 - 17:10

Activity

Skiing

Skied south of Cooke today and noticed a large natural avalanche just north of the South Siren. N-R2-D2.5-O. It wasn't fresh and likely ran during the last storm cycle.

We dug on an east [aspect](#) at 9800', ECTX, HS150. No cr, co.

Region

Cooke City

Location (from list)

Republic Creek

Observer Name

Nina Marienthal
