## **Frazier Basin Avalanches**

Date Wed, 02/19/2025 - 13:30 Activity Skiing

From IG - "Toured out to Frazier Basin and turned around seeing widespread avalanches and active <u>wind</u> <u>loading</u>. Despite our pits on the Throne the day before showing no weak layers, the amount of <u>wind loading</u> and potential for slabs over density changes gave us pause. Good skiing and sledding down low."

Region Bridger Range Location (from list) Frazier Basin Observer Name M Cohen
