

Wind Slab Avalanches South of Cooke

Date

Fri, 03/14/2025 - 15:05

Activity

Skiing

Today I observed multiple small wind slab avalanches off Woody Ridge. NE and E facing, 10000 ft. Max size D1. Also, there was many dry loose slides on Cooke Peak in Hayden Creek.

Region

Cooke City

Location (from list)

Hayden Creek

Observer Name

J Mundt
