

Snowmobiler triggered 4 foot deep slide Sunlight Basin

Date

Fri, 03/14/2025 - 16:20

Activity

Snowmobiling

A group of riders saw Mark at the gas station and shared that they had triggered a 4' deep [slide](#) in a small pocket in Sunlight Basin of the Taylor Fork area. It was in an area with a relatively shallower snowpack, and broke on weak snow near the bottom of the snowpack. The rider that triggered it was going uphill and got stuck shortly after and noted the snowpack was much deeper there.

Region

Southern Madison

Location (from list)

Taylor Fork
