Stability on similar slopes: Fair

HS105 Stability Test Notes:

19: fx layer

0-19: Prob

N. Madison, MT Elevation (ft) 9370

Slope: 33

Precipitation: None

Aspect: 34

Wind loading: previous Wind: Calm

I K P 1F 4F F
Notes: This avalanche was triggered yesterday by a snowmobiler. It was a remote trigger and no one was caught. This area had a big load, the first of and it held facets since it was higher elevation, northerly facing. We went with Brad Grein to the site.
