

Saddle Peak: Path from air

Both the crown and the victim's location are marked on the photo. The skier was carried 1500 vertical feet downslope and buried near the toe of the debris. Rescuers reached him 75 minutes after the slide occurred, but the avalanche was fatal. Photo: GNFAAC

Advisory Region

Bridger Range

Avalanche Details: [1 skier triggered, caught, partially buried, killed](#)

Bridger Range, 2018-04-14
