

## Cracking and Collapsing near Ennis Lake

Red Knob  
Northern Madison  
1/26/2019  
Code  
Elevation  
8000  
Latitude  
45.45470  
Longitude  
-111.59200  
Notes

From the email: "Went to Red Knob, up Trail Creek at the northeast side of Ennis Lake. Between the two of us, we experienced 16 collapses on slopes above 7000 feet to the top at 8000. Did not dig any pits, stayed on slopes less than 30. One slope at about 30 collapsed and shifted down slope a few inches." - J. Riedel and A. Hjelt
