

## New Beacon Checker in Cooke

The Upper Yellowstone Snowmobile Club worked with the Friends of GNFAC to install two new Beacon Checkers near Cooke City. One is located on the north edge of town as you leave on Miller Rd. The second is at the intersection of Lulu Pas Road and the road to Round Lake.

\*\*Please note, these checkers are not a substitute for formal daily transceiver checks with your entire group. They are there as a reminder. It is important to ensure all of your group member's transceivers have full

batteries, and their transmit and search functions work properly. Photo (and assembly): B. Zavora
