

## Whumphing and natural wet slide near Electric Peak

Electric Peak  
Southern Gallatin  
3/26/2022  
Code  
WL-N-R2-D2-G  
Latitude  
45.00800  
Longitude  
-110.83700  
Notes

From obs 3/26/22: "Freezing temps overnight created breakable crust in the morning which quickly deteriorated as the day warmed. (Temps rose surprisingly faster than we anticipated. Experience large whumphs while ascending the NW shoulder of Electric Pk. at 9600 ft. Without hesitation we turned back and skied out the skin track. The snow became very rotten and we penetrated to boot-tops often while exiting."
